SUBJECT INDEX

1/f fluctuation	193	Cortisol	221
5-hydroxy-indoleacetic acid	43	Cosinor method	321
Abulatory monitoring	239	Cosmetology	69
Achaea janata	419	Cycle	245
Actigraphy	125		
Activated thromboplastin time	203	Daily variations	179
Activity	35	Data acquisition	341
Activity-sleep cycle	125	Data processing	341
Adenylate cyclase	107	Depression	5, 165, 305
Adjustment	227	Dermatology	69
Age	227, 245	Desynchronisation	305
Age at menarche	251		
Age-dependency	107	Electrophoresis	433
Aging	291	Entrainment	383, 419
Aging	445	Enzyme activity	99
Aldosterone	43	Enzyme affinity	99
Alpha-1-antitrypsin	203	Equilibrium binding studies	235
Alpha-2-macroglobulin	203	Essential hypertension	321
Aminoglycoside antibiotics	393	Euglena	99
Antithrombin III	203	Exocrine pancreas	377
Arterio-venous difference	283		
Atrial natriuretic factor	51	Face fly	413
Auditory brainstem response	393	Factors V and VIII	203
		Feeding rhythm	419
Behavioural	291	Fibrogen	203
Benzodiazepine	35	Filtering	341
Beta-endorphin	135	Fischer rats	113
Binding	277	Food anticipation	383
Biological rhythm	467	Food restriction	383
Blood	445	Food selection	283
Blood coagulation	203	Forskolin	107
Blood pressure	51, 135, 321	Freshwater	93
Body	93		
Body temperature	135, 179	Gender	125
Body temperature marker rhythm	393	Genetics	371
Breast	239	Gentamicin	393
Breast diagnosis	239	Giardiasis	329
Breast temperature	239	Glucose	283
		Growing rats	43
Calcium calmodulin	353	Growth	93
Caloric restriction	113	Growth hormone	217
Caloric restriction	291		
Carbachol	277	Hamster	35
Chronic renal disease	321	Headache	467
Chronobiology	143, 165, 239	Heart rate	59, 135, 305, 321
	321, 341	Hemodynamics	317
Chronomorphology	377	Hemolymph sugar	413
Circadian 155, 217, 221, 353, 433		Hemolymph trehalose	413
Circadian clocks	5	History of research	179
Circadian efficiency	59	House sparrow	187
Circadian enzyme rhythms	25	Human birth rates	171
Circadian rhythm	35, 99, 125	Human cognitive performance	143
	135, 143, 187, 193, 203, 277	Hypothalamus	43
	291, 305, 317, 321, 341, 413		
	445	In vivo studies	403
Circadian rhythms	43, 69, 113	Industrial accidents	155
	179, 227, 371, 377, 383, 425	Insulin	283
Circadian studies	235	Interval therapy	317
Circadian susceptibility-resistance rhythm	393		
Circannual	245, 251, 329	Liposomes	69
Clock-controlled transcription	25	Low and high protein diets	43
Common migraine	467		
Conformational oscillators	25	Mania	5
Constant light	383	Masking	425
Constant routines	425	Membranes	353
Continuous	93	Menarche	251
Continuous darkness	413	Metabolic programmes	25
Continuous light	413	Metabolism	291
Coronary heart disease	317	Mice	371
Corpus allatum	419	Month of birth	251
Corticosterone	43	Monthly rates	171
		Morningness-eveningness	305

Subject Index

Morphometry	377	Sampling	341
Multiple component analysis	217	Sampling robots	235
Musca autumnalis	413	Seasonal	245
Muscarinic receptors	277	Seasonality of menarche	251
Muscle tone	193	Serotonin	43
		Shift rota	155
N-terminal prohormone peptides	51	Shift work	155, 227
NAD kinase	99	Short stature	217, 221
NADP phosphatase	99	Single diet	283
Neurobehaviour	193	Size	93
Nitrates	317	Sleep movement	125
Noctosome R skin aspects	69	Social dislocation	5
Normalization	171	Social zeitgebers	5
Nude	371	Spectral analysis	193
		Spontaneous locomotor activity	193
Oscillation	99	Standard stature	217, 221
Ototoxicity	393	Stimulate	93
		Synchronizers	113
Parasitic infection	329		
Pediatrics	221	Temperature	59, 291, 425
Periodicity	251	Temporal pattern	283
Phase response	353	Testosterone	245
Phase-advance	165	Thermobiology	239
Photoperiod	93, 187	Thrombin time	203
Photorefractoriness	187	Thymus	371
Physiological	291	Time-qualified-reference value	125
Pineal	93	Translational control	353
Pirenzepine	277	Trehalose	413
Platelet aggregation	203	Triazolam	35
Prawn	93	Trichloroethylene	193
Precocene	419	Tryptophan	43, 283
Prevention	329		
Protein	433	Ultradian	217
Protein phosphorylation	353	Ultradian rhythms	353
Protein synthesis	353	Urine	425, 433, 445
Prothrombin time	203		
Public health education	329	VO2 max	59
		Ventilation	135
REM sleep	165	Vital signs	445
Rat	283	Vital statistics	171
Rat forebrain	277	Vitamin K 2,3epoxide reductase	403
Rat heart	107	Vitamin K reductase	403
Rats	393, 403		
Rhythm	393, 433	Warfarin	403
Rhythmicity	107	Weight	93
Rhythmometry	329	Work injury	155
